COVID-19 National Statistics

209,675↓ Total active cases
284↓ Rate of cases (last 7 days, per 100,000)
108,648↓ New cases in the past 7 days

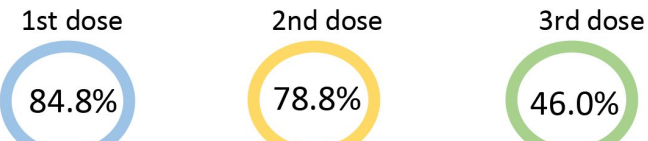

13 Provinces and Territories with at least 85% of their population 5+ partially vaccinated
12 Provinces and territories with at least 75% of their population 5+ fully vaccinated

Health Care and Public Health - Statistics

9,713↓ Patients in hospital
12%↑ Patients in ICU
1,165↓ ICU beds used

% of Canadians Vaccinated

The number of fully vaccinated Canadians has increased by 2.3% in the past 7 days.

RFA Snapshot

Since January 2020, the Government of Canada has supported **164** RFAs

Current RFAs

- QC:** COVID – HHR + logistical support for vaccination (CAF)
- MB:** COVID – CRC
- ON:** COVID – CRC (EPC), CAF (ORI 3.0), CAF (Attawapiskat FN) and CAF (Peawanuck FN)
- NWT:** COVID – MHU O₂ (GoC), CRC (Contact Tracing)
- NS:** COVID – CRC (HHR)
- PEI:** COVID – CRC
- NU:** COVID – GoC (HHR)

COVID-19: Key Trends Canada

- Omicron:** As of 27 Jan, BA.2 sub-lineage of Omicron (first detected in Nov 2021) has been detected in at least 40 countries (including Canada, US and UK) and its accounts for 2-3% of cases identified through Canadian border testing sequences.
- As of 5 Jan, the priority of all provinces and territories is the administration of booster shots to address the surge of the Omicron variant.
- The overall rate of cases (per 100,000 population) in Canada decreased over the past 7 days.
- In the past 7 days, the number of COVID-19 hospitalizations in Canada decreased from 10,500 to 9,713 and ICU bed occupancy decreased from 1,217 to 1,165.

COVID-19 Statistics

RFA Summary

Quebec

- CAF - RFA approved 28 Dec to 15 Feb 2022. An extension was approved on 25 Jan. Support is for human resources and logistical assistance for the Provincial vaccination campaign. On 28 Jan, the Province and CAF coordinated to progressively disengage CAF support at certain vaccination sites. It is confirmed that five vaccination sites will be demobilized between 28 Jan and 15 Feb. As of 31 Jan, there are approximately 11 vaccination sites remaining with under 100 CAF members.

Manitoba

- CRC - RFA approved on 31 Jan. Support is for additional assistance focusing on acute care and ICU resources from 5 HHR personnel.

Ontario

- CAF - RFA approved 15 Nov to 31 Mar 2022. Support is for Operation Remote Immunity 3.0, Canadian Ranger assistance to the provincial vaccination program in 3 NW Ontario communities. 2 ORI 3.0 clinics are scheduled for this week in Kashechewan FN.
- CAF - RFA approved from 15 Jan to 11 Feb. Extension request was approved 28 Jan. Support is for CAF Rangers' assistance to Attawapiskat FN for essential services in the community. As of 15 Jan, 10 Rangers are active in the community. CRC supports are being provided through a bilateral arrangement outside the RFA process.
- CAF - RFA approved 30 Jan to 12 Feb. Support is for community assistance for essential services in Peawanuck FN. 7 Canadian Rangers have been activated. CAF is able to deploy up to 9 Rangers.
- CRC - RFA extension request approved from 26 Nov to 31 Jan 2022. Support is for the continuation of the funded-CRC onsite EPC and resident support aides to assist retirement homes in outbreak support. A new RFA was received and is under review. As of 31 Jan, CRC remains active in 3 LTCF/RH facilities.

Northwest Territories

- GoC - RFA approved for 6 Oct to 31 Mar 2022. Support is for the deployment of a MHU Oxygen Concentrator package with generators for use at the Stanton Territorial Hospital in Yellowknife.
- CRC - RFA approved under the HWP program for 20 Jan to 3 Mar. Support is for remote/virtual assistance for contact tracing by 6 personnel.

Nova Scotia

- CRC - RFA approved for 17 Jan to 14 Feb with a possible two-week extension. Support requested under HWP to assist provincial immunization program with 14 clinical resources and IMGs, as well as up to 10 personnel for general duty. As of 23 Jan, the CRC resources are currently active with 11 clinical staff, six generalists and one psychosocial expert.

Nunavut

- GoC - RFA approved on 14 Jan. Support requested for various health services, correctional facilities and additional policing. On 13 Jan, GN Health signed an interchange agreement with HC for the support 4 Public Health nurses. On 28 Jan, CRC and NU Health have selected six clinicians, scheduled to start on 7 Feb. On 31 Jan, two nurses have arrived in Rankin-Inlet. On 27 Jan, CRC proposal was received and is being reviewed by PS.

Prince Edward Island

- CRC - RFA approved for 17 Jan to 31 Mar. Support is for non-clinical assistance in 5 mass vaccination clinics. CRC support is fully staffed.

Strategic Updates

Emerging Issues

- As of 1 Feb, the vaccine mandate protest has begun to disperse from Parliament Hill in Ottawa. However, some border crossings such as Coutts in Alberta and Emerson in Manitoba are still experiencing delays due to the protest.

Manitoba

- As of 31 Jan, MB is reporting 505 new cases. There are currently 31,535 active cases with a five-day test positivity rate of 30.4%.
- As of 31 Jan, there were 694 active cases on FN reserves.

Northwest Territories

- As of 31 Jan, NWT is reporting 902 active cases.

Nova Scotia

- As of 31 Jan, NS is reporting 256 new cases and 3,913 active cases, with a test positivity rate of 14.9%.

Nunavut

- As of 31 Jan, NU is reporting 152 new cases over the weekend, with a total of 472 active cases.

Ontario

- As of 31 Jan, ON is reporting 3,043 new cases, with a test positivity rate of 14.7%.
- As of 31 Jan, there are 353 LTCHs and 192 retirement homes in active outbreak.

Prince Edward Island

- As of 31 Jan, PEI is reporting 234 new cases and 2,152 active cases, with a test positivity rate of 18.7%.

Quebec

- As of 31 Jan, QC is reporting 2,423 new cases with a test positivity rate of 11.4%.
- As of 31 Jan, there are 230 active cases in Nunavik.

Saskatchewan

- As of 31 Jan, SK is reporting 736 new cases, with 12,208 known active cases. As of 29 Jan, the test positivity rate is 30.2%.
- As of 30 Jan, there are 352 active cases in 48 FN communities and 15 active outbreaks in 11 FN communities.

British Columbia

- As of 31 Jan, BC is reporting 27,454 active cases, including 1,057 new cases. As of 30 Jan, the 7-day moving average test positivity rate is 21.1%.

Borders

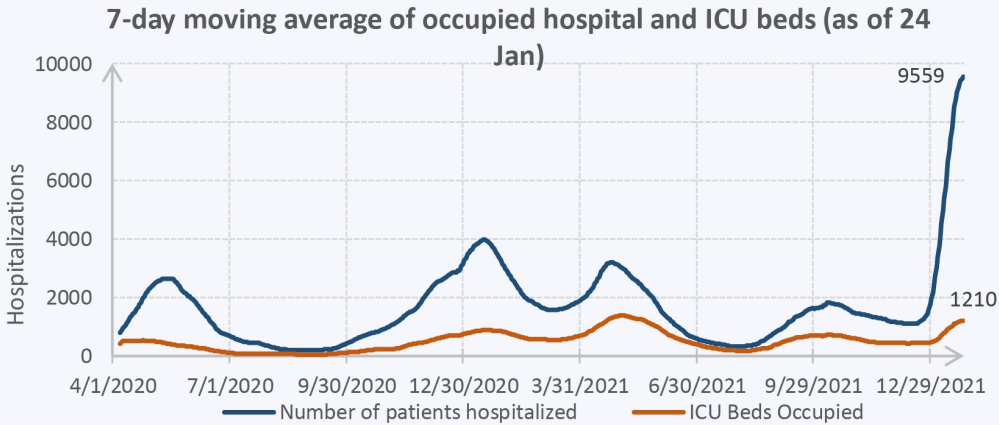

- As of 15 Jan, cross-border commercial drivers and other essential-service providers, including emergency workers, will be required to be fully vaccinated before entering Canada. Fully vaccinated is defined as two doses of the mRNA vaccines or a single dose of the Johnson & Johnson vaccine.
- On 28 Jan, the modified pre-departure test requirements for travellers coming to Canada on direct or indirect flights from India or Morocco will be removed.
- As of 31 Jan, temporary exemptions from pre-entry, arrival, and Day-8 testing and quarantine requirements for residents and essential workers of British Columbia who must travel by land to or through the United States for essential food and supplies has ended.

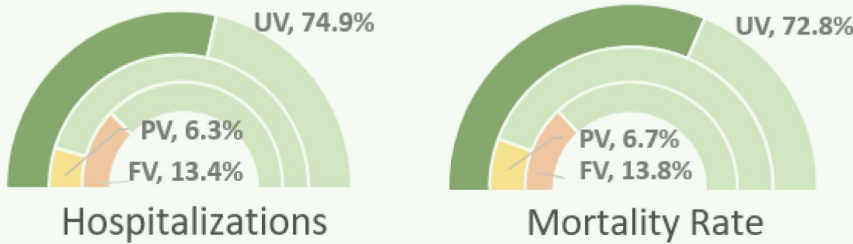

COVID-19 Indicators

Top 5 P/Ts with highest total of active hospitalizations (*As of 31 Jan unless otherwise indicated)		
Prov./Terr.	COVID-19 Hospitalizations	COVID-19 ICU Patients
*ON (1 Feb)	3,091 (+108)	568 (-15)
*QC (1 Feb)	2,852 (-36)	218 (-5)
AB	1,516 (+20)	99 (-6)
BC	1,048 (+58)	138 (-3)
MB	735 (+20)	56 (+4)

Numbers in brackets are the change from previous business day. *N/A - Not available

Canada COVID-19 Vaccine/Vaccination

*Data does not include cases where symptom onset was 0 to <14 days following first dose.

- Based on P/T case data provided to PHAC, between 14 Dec 2020 and 8 Jan 2022:
 - Hospitalizations: 13.4% were Fully Vaccinated (FV), 6.3% were Partially Vaccinated (PV) and 74.9% of patients were Unvaccinated (UV).
 - Mortality Rate: 13.8% FV, 6.7% PV and 72.8% UV.
- All Canadian P/Ts are prioritizing third dose vaccination.
- As of 22 Jan, 8.6% of Canadians aged 5 to 11 are fully vaccinated and 53.1% are partially vaccinated. 24.4% of Canadians ages 18 to 29 are fully vaccinated with an additional dose, 84.0% are fully vaccinated and 88.5% are partially vaccinated. For Canadians ages 30 to 39, 31.1% are fully vaccinated with an additional dose, 84.5% are fully vaccinated and 88.0% are partially vaccinated.
